*To the Moon and Back (STEEL Remix)*  
*(WEPLAY Music)*

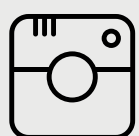

# STEEL

## ABOUT

STEEL dropped right into electronic dance music in 2010 – aged 16. From then on he managed to deejay at dance clubs and discotheques in cities around his hometown.

Receiving early support from the internationally known dance act Italobrothers, inspired him in releasing a track on their label. Later on, he performed as a warm-up DJ e. g. for the world famous Moguai or German dance act VIZE. Some of STEEL's songs and remixes were played by broadcasters like 1LIVE, one of the biggest German radio stations. As a passionate guitarist and pianist he knows what matters good music and quality. He doesn't prefer one specific genre, he rather lives and loves (electronic) music in its diversity.
